

## CHIEF GETS REPORT ON STEVENS AFFAIR

Theory That Negro Shot  
Bank Employee Said to  
Be Abandoned.

A complete detailed report of the investigation made by Central Office detectives of the shooting of F. Bernard Stevens at the United States Savings Bank last Saturday night was submitted to Major Sylvester this morning. The report contains the names and addresses of all the persons who have been interviewed by the police, and is also said to contain the conclusions reached by detectives who have been working steadily on the case.

The report will be studied carefully by the superintendent of police, who will decide later whether it will be made public. It can be said on good authority that the investigation of the detectives has resulted in the police abandoning the theory that Stevens was shot by a negro. As soon as Stevens is able to leave the Emergency Hospital the detectives will meet him at the bank and have him show them just how he was shot.

**Tells of Real Witness.**  
George E. Slaybaugh, cashier of the bank, said this morning a witness had been found who saw a negro enter the bank by the U street entrance just a few minutes before the shot was fired. This witness, Mr. Slaybaugh said, corroborates the story told by Stevens that he was shot while grappling with a negro in the hallway between the vault and the small office used by the president. He said further he could not give out the name or address of the witness as all the information had been turned over to the police, and he would rather have it come from them.

**Denied From Police.**  
The police and detectives deny that any such witness has been found. They say they have found no one who saw a negro enter the bank. Asked regarding the statement made at the bank this morning, Inspector Boardman said:

"I do not want to dispute any one's word or get into a controversy through the newspapers. Whatever is said by persons connected with the bank is undoubtedly so. I have not heard of any one who saw a negro enter the building. We are still working on the case."

Georgetown Men Buy Property at  
Wisconsin Avenue and  
M Street.

John W. Bogley, secretary of the Potomac Savings Bank; Henry W. Offutt, a Georgetown real estate broker, and William H. Haney, of 1617 Wisconsin avenue, have purchased the business property, at the southeast corner of Wisconsin avenue and M street, the consideration being \$25,000.

The property is located at the intersection of the Tenleytown, Rockville, and the Capital Traction lines, and belonged to the estate of the late George T. Dunlop, former president of the Capital Traction Company, who held it for many years as an investment.  
The first floor of the building is now occupied as a lunch room and barber shop, billiard and pool rooms are on the second and third floors. The aggregate yearly rent is \$1,500. When Mr. Dunlop was living he refused many offers for this property, one proposition coming from the Potomac Savings Bank, which finally purchased the corner directly opposite from Mrs. DeBree Higgins for \$37,500. It is understood the present tenants will not be disturbed.
